This significant day marks the discovery of the Raman Effect by the eminent Indian physicist Sir C.V. Raman in 1928, a pivotal moment that showcased India's prowess in scientific research on the global stage. National Science Day serves as a platform to promote scientific education and cultivate a culture of inquiry and innovation among the youth. Educational institutions, research organizations, and government bodies organize a myriad of activities including seminars, workshops, exhibitions, and science fairs to engage students and the public in hands-on learning experiences. Another one student have shown poster of Mangalyaan- The Mars Orbiter Mission (MOM) and explained the same. Celebration was summed up by Dr. Krunal Parekh and conducted the entire event as the convener of the event, Prof. Virendra Disawal proposed a vote of thanks and Dr. Anup Suchak provided the technical support for the seminar.</i></p>
